

TikZ - CADimension

Victor Alberto Romero

September 2, 2014

1 Introduction

This is the *code documentation* of the TikZ-CADimension library.

2 Tikz-CADimension goals

The principal goals of Tikz-CADimension library is provide some basic and intermediate functionality for the design TikZ figures with dimension lines and related stuff, common in engineer CAD design.

3 Features

The features are:

- Classical dimension lines.

4 Command structure

5 Code structure

6 Limitations by implementation

7 Future work and possible path
